

# Norton 360 for Mobile

**Multiple layers of protection for your mobile device and online privacy.**

## Norton 360 for Mobile

- Helps detect and protect against existing and emerging cyberthreats to your mobile device.
- Helps protect your private and financial information when you go online.
- Is designed to safeguard your personal information by helping secure your mobile device and data online against cybercriminals' attacks, both at home and on-the-go.
- Includes Dark Web Monitoring<sup>§</sup> which scans the dark web for your personal information and you're notified if it's found.

## Features

### iOS/Android:

#### Device Security

Protection against vulnerabilities cybercriminals may use to take control of your device or steal your personal information.

#### Dark Web Monitoring<sup>§</sup>

We monitor the dark web and notify you if we find your personal information.

#### Web Protection

Helps detect and safeguard you from navigating to fraudulent (phishing) and malicious websites when using your preferred browser or opening links from apps, text messages and emails.

#### Secure VPN

Access your favourite apps and websites when connecting to Wi-Fi at home or on-the-go with the reassurance of bank-grade encryption.

#### Password Manager<sup>1</sup>

Helps you take control in protecting your online passwords.

#### SMS Security<sup>2</sup>

Helps keep you and your device safer from text with phishing links.

### Android Only:

#### App Advisor for Google Play for new apps

Scans apps before you download them to help protect against mobile threats like malware, ransomware, adware, and privacy leaks.

#### App Advisor for existing apps

Scans your existing apps and app updates for online threats like malware, ransomware, and privacy leaks.

### iOS Only:

#### Secure Calendar

Identifies risky invites detected in your default system iOS Calendar.

## How To Install

1. Visit <https://www.norton.com/setup> on a web browser.
2. Create an account, and if you don't have one it's easy, just use your email address.
3. Enter the 25-digit product key.
4. Click Next and follow the on-screen instructions.\*

## System Requirements

- Android OS: Android 8.0 or later / ColorOS™ 7.1 or later. Must have Google Play app installed. Multi-user mode not supported.
- iOS: iPhones or iPads running the current and previous two versions of Apple® OS.

<sup>1</sup> Password Manager features are not exclusive to Norton 360 for Mobile functionality but are independently available for free online.

<sup>2</sup> iMessages are not supported.

<sup>§</sup> Dark Web Monitoring is not available in all countries. Monitored information varies based on country of residence. It defaults to monitor your email address and begins immediately. Sign in to your account to enter more information for monitoring.

\*1 YEAR SUBSCRIPTION TERM: It begins upon initial installation and activation.
