

Norton 360 Premium

Choose to be safer online.

It's not that you try to be unsafe online. But sometimes, you can't help it. To get access to what you want, you may have to give up personal information and privacy and be a little unsafe.

Norton 360 has multiple layers of protection that helps keep your digital life safer. With device security, a VPN for online privacy, and Dark Web Monitoring[§].

Opt-in to Cyber Safety™

Award-winning cyber security

PC EDITORS' CHOICE[®] **48 TIME WINNER**
The Most Awarded Consumer Security Brand Ever by PCMag

Multiple layers of protection for your device and online privacy – all in a single solution.

Features

Dark Web Monitoring[§]

The dark web is scanned for your personal information and you're notified if it's found. Monitoring includes: driver licence, email addresses, credit card numbers, gamer tags and more.

Device Security

Real-time protection for your devices against ransomware, viruses, spyware, malware and other online threats

Secure VPN

Access your favourite apps and websites when connecting to Wi-Fi at home or on-the-go with the reassurance of bank-grade encryption

Parental Control[‡]

Includes an impressive range of supervision tools and reports to help you manage your kids' activities online. Help them explore, learn and enjoy their connected world safely.

Password Manager

Easily create, store, and manage your passwords, credit card information and other credentials online – more securely.

PC Cloud Backup

Automatic¹ cloud backup for PCs – to store important files and documents as a preventative measure against hard drive failures, stolen devices and even ransomware.

PC SafeCam

The webcam on your PC could be vulnerable to hacking. Get notified if cybercriminals try to use your webcam, and we can help block them.

System Requirements
